

Area of a Rectangle Project

- Use graph paper.
- Combine 5 rectangles to make a house floor plan.
- Label each room.
- Calculate the area of each room.
- Show all calculation in the room.
- Calculate the total area.
- Color each room a different color.

Example.

$$L = 7.8 \text{ m}$$

$$\begin{aligned} A &= l \times w \\ &7.8 \text{ m} \times 4 \text{ m} \\ &31.2 \text{ m} \end{aligned}$$
